Name: _____   Date: _____

My Model for Changes in Bacteria Populations

My explanation for what is causing changes in the population for CASE 1 using my model:

> _Population Before the Change_

> _Environment_

> _Survival and Reproduction_

> _Offspring and Inheritance_

> _Population After the Change_

My explanation for what is causing changes in the population for CASE 2 using my model:

| Population Before the Change | | Environment |

Survival and Reproduction

Offspring and Inheritance

Population After the Change
