

Instructions for NetLogo Bird Breeder Simulation

To run the simulation, go to this web address: <https://tinyurl.com/birdbreedersim> and/or follow your teacher's instructions.

Once the simulation loads, read through the directions as indicated in the image below.

Advance through each step in the instructions by pressing the NEXT INSTRUCTION button, and once you've read through them all, begin to run the simulation as outlined by those instructions.

- Start with Level 1 difficulty.
- If you wish to see the alleles, click the SEE ALLELES? checkbox.
- If you want to adjust the difficulty you can do so, but then you will need to restart the simulation by pressing the SETUP button again for those changes to take effect.
- Then press GO/PAUSE to begin running the simulation.
