

Mapping the \_\_\_\_\_ to the real world phenomenon: \_\_\_\_\_

| This part in our model... | is like this feature in the real world... | because... | ...and not like it because... |
|---------------------------|---|------------|-------------------------------|
|                           |   |            |                               |
|                           |   |            |                               |
|                           |   |            |                               |
|                           |   |            |                               |
